Ground-Mounted Equipment

Part of Milbank's Enclosed Controls line, Milbank Express (ME) is designed to be modular, off-the-shelf solutions for simple lighting, traffic, EV, and general distribution applications. Milbank Express product is available in the exposed meter design as required by utilities in Florida. Additional components such as breakers, contactors and time clocks can be sourced through Milbank or purchased through a local distributor. Please confirm with the serving utility, and governing agency if applicable, to ensure their acceptance of this product configuration prior to purchase. Milbank personnel and representatives are available to help select correct configurations should you need assistance.
